

# REPUBLICAN HOLD OF HOUSE ENDANGERED BY DEMOCRATS

## Lodge Squeezes In; Hitchcock Has Lost; Nation Awaits West

(Associated Press Leased Wire.)

NEW YORK, Nov. 8.—At noon eastern time today 25 states had completed their returns but neither Republicans nor Democrats had progressed much further toward control of the House. The vote at that hour showed:

Republicans 185.  
Democrats 187.  
Socialist 1.

A majority to control is 218. Iowa was the only state which has returned a solid Republican delegation.

NEW YORK, Nov. 8.—Swept before a rising tide of Democratic victories in the many states, the tremendous Republican majorities piled up in the Harding landslide were knocked right and left in the election yesterday.

The Republican majorities in the United States Senate and in the House of Representatives were sharply reduced but Republican managers declared they would not be wiped out. Until belated returns from West and Middle West began trickling in today the Democrats actually were leading in the poll of votes for the House.

The 11th Michigan district which went for the Republicans tied the two parties at 178 each in the race toward the ing votes were to come from the west.

Senator Henry Cabot Lodge, Republican leader in the Senate squeezed through in Massachusetts with a plurality of 1945 votes in nearly a million votes cast and friends of William A. Gaston, his Democratic opponent, were talking of a recount. In Indiana, Maryland, New Jersey, New York, Michigan and West Virginia Democratic senators replacing Republicans had either been conceded or were indicated on the face of returns.

The Republicans had an assured Senate victory in Nebraska where E. B. Howell displaced Sen. G. M. Hitchcock, Democratic leader and prospects of another in Ohio although today showed Senator Allee Pomerene cutting down the lead of his opponent, Simeon Fess. Not a single gain in the House had appeared today to count against the inroads the Democrats made in every state. Various causes from prohibition to the tariff were being brought forward to explain the result.

NEW YORK, Nov. 8.—Returns today supplementing those of last night showed that Republican seats in Indiana, Maryland, New Jersey, New York, Michigan and West Virginia had been captured by the Democrats and that the Republicans had taken Senate seats in Nebraska and Ohio. In Delaware, Montana and Minnesota the results were still too close to be counted in either column. These returns so far would reduce the Republican majority in the Senate from 24 to 16 with prospects of further reduction.

### Starts Drive On Auto Owners Who Have No Tags

Sam Wilson and G. W. Rogers, farmers of Caswell county, were this morning arraigned in the police court for driving automobiles without license tags but after some little wrangling the cases were held up by the mayor, who instructed that the law be made plain through an insertion in the papers but that in the future it be enforced more rigidly. The farmers were arrested by E. C. O. Jones, recently appointed by E. C. O. Jones, as license inspector. The trucks were seen here without any tags and the owners placed under arrest. They contended that they had applied for licenses and have not yet received the tags. A J. H. Wilson, tobacco store here, was present in court this morning to represent the two men. He sought a dismissal of the charges on the grounds that the farmers were ignorant of the law and because they patronized the local market. Coming here from near Roxboro, N. C., with their produce to sell, and for these reasons they should not be molested.

Mr. Coleman replied that ignorance was no excuse and the mayor added that although he was glad to see them patronize the local market, the law must be enforced regardless of whether a man brings his tobacco here or to another place. He stated that it was a violation but that he would reserve decision in the case. The following other cases were disposed of this morning in the police court:

Allie Lee fined \$2.50 on a trespass charge. J. J. Plate charged Lee with coming into his house and taking away an electric light bulb. Lee claimed he had just moved out of the house and that he was returning to get some articles he had left there.

Jessie Anderson, colored, was fined \$5 and costs for an alleged assault on Bertha Meadows, a negro. He is said to have slapped her because she was "telling things about him to his wife."

Early Hall submitted to a charge of assaulting J. M. Cheek and paid a fine of \$8.50.

P. S. Lefwich, arrested here as a fugitive from justice from Roanoke was turned over to an officer from that place this morning. Lefwich is wanted there in connection with an assault charge.

### Parcel Post Great Help To Truckers

By GEORGE H. MANNING  
(Washington Correspondent of The Washington Post.)  
WASHINGTON, D. C., Nov. 7.—Virginia growers of vegetables for the market do not appreciate the extent to which the parcel post is utilized for carrying farm produce to market, not only in individual shipments but in bulk to dealers.

The great extent to which the facilities of the parcel post are utilized by the growers of lettuce in Colorado, where the raising of the succulent green is a new but fast-growing industry, is explained by the Postoffice Department in a bulletin today.

An average of 150 standard crates were handled daily by the Denver postoffice during the 30-day season this year. Each crate contained from 26 to 48 heads of lettuce and weighed from 65 to 70 pounds. The largest single day's shipment was 249 crates.

### Henry County Officers Capture Moonshine Outfit

MARTINSVILLE, Nov. 7.—A 400-gallon copper still, two mules, a wagon, a number of pounds of sugar, several gallons of beer, which were poured out and 250 gallons of new corn whiskey were captured in the Fishboro neighborhood, Henry county, yesterday by Grady Stultz, prohibition inspector, Police Officer Henry Mead and Ben Minter, game warden, who was called to aid in the raid.

The four men who are at the still, escaped, but the names are known, and every effort will be made to apprehend them.

### MARKET READY

(Associated Press Leased Wire.)  
NEW YORK, Nov. 8.—Opening prices on the New York exchange today were irregular but the main trend was downward. Opinion was divided as to whether the weakness was due to speculative disappointment over the election or merely the resumption of short selling and profit taking. Most standard issues opened lower but good gains were made by specialties. Railway shares generally yielded less than a point.

## Sweeping Victories Made By Democrats In Old Dominion

Swanson's Majority Will Be at Least 50,000 Virginia Is Made Solidly Democratic by Peery's Victory.

(Special to The Bee.)

RICHMOND, Nov. 8.—Senator Swanson has been returned to the United States by a majority that will reach at least 50,000, defeating one white and one negro candidate. In several instances the negro candidate received more votes than the white Republican. For the first time in twenty-two years the Democrats have a solid delegation in Congress. More votes were cast in the seventh and ninth districts than in the rest of the State. In some Republican precincts the vote has been large for a constitutional convention.

but the Democrats turned their backs on the movement and have registered about 60,000 majority against that proposition. In the seventh district, where Congressman Harrison was unseated and his place given Captain John Paul, the Democrats have returned a majority of 6,000 for Congressman Harrison. The majority for Peery in the ninth, where Congressman Sloop has held sway for years, the Democrats have elected George C. Peery by 2,500 or more.

## Eats 2 "Hot Dogs" Dies Soon After

Three-Year-Old Child Succumbs to Poisoning After Suddenly Becoming Ill.

Louis Randolph, three-year-old son of Mr. and Mrs. Will H. Cook, 325 Floyd street, died yesterday from a sudden illness caused by poisoning. The little boy was in perfect health until late Monday afternoon when he suddenly became ill after eating two "hot dogs." He gradually grew worse and after suffering a series of convulsions, passed away at 1:19 o'clock Tuesday morning.

Mrs. Cook and her child had been to North Danville on a visit and were returning home about 6 o'clock when the child asked her to buy him some "weenies." They stopped at a stand on Union street and made the purchase. The lad ate one of them and stated to his mother that he would give the other for "daddy." In a short time he mentioned that he wanted another weenie. Mrs. Cook told him to eat it if he wanted it, for "daddy" could buy him some. The child ate the second one and in a short time became very ill. A physician was called and after asking what he had eaten and examined him, stated that he had been poisoned. Treatment was administered and the ailing child seemed to be resting more comfortably. About 11 o'clock that night he became worse and began having convulsions apparently suffering much pain. The physician was again called and it was realized the poison was having serious effects. The convulsions continued until the child passed away.

The funeral was held Tuesday afternoon at 6 o'clock from the home on Floyd street. The services were conducted by Rev. Charles L. Garrison. Interment was made in Mountain View cemetery.

W. H. Cook, father of the child, said this morning that his child had never been ill and was in perfect health at the time of his sudden illness.

### Moose Mardi Gras Here This Week

The Mardi Gras celebration which is being held here under the auspices of the local Moose opened last night in the Municipal hall and was well attended despite the delay, the concessionaires experienced in preparing their stands. The hall had been rented but by oversight apparently it was forgotten that it is a city voting precinct so that nothing could be done yesterday and it was only when the polls closed that the hall could be taken possession of. Tonight it is expected that a large crowd will be on hand. The entertainment features include a dog and pony act in a miniature circus ring, vaudeville troupes and the Winter Garden orchestra which contributed a good deal towards last night's enjoyment. The walls of the hall are lined with concessions of various kinds and there are also a number of sideshows. Tonight a style show will be given. The entertainment which will continue through Saturday night opens nightly at 7 o'clock.

### JAPANESE "WITTS" TAKING NO CHANCES

(The Associated Press.)  
TOKYO, Nov. 8.—The casual observer there would not appear to be any chance of Japan following the United States and going "dry," but the dealers of sake and brewers of beer, the latter now almost as much a national drink as the former, are taking no chances. A national campaign has been inaugurated in which speakers from the college and universities dilute on the beneficial qualities of sake and beer. Dr. Suzuki, a well known chemist is delivering a series of lectures among the titles of which are: "Falls of Hypocritical Propaganda," "Sake after My Impressions of America," and "Prohibition and Japan."

## Governor Edwards Wins Out On Wine And Beer Platform

Powell Glass, Senator's Son, Shot In Eye

LYNCHBURG, Nov. 7.—Powell Glass, elder son of Senator Carter Glass, was seriously, though not fatally wounded yesterday afternoon while hunting with two companions, M. P. Tanner and Bertley Martin, in Appomattox county, near Stonewall. Mr. Glass received almost the entire load from a shotgun in his left eye, some of the shot taking effect in his left eye. Dr. Hedges, of the University of Virginia hospital, and Dr. James Morrison and Dr. John W. Carroll, of this city, last night removed the injured eye and expressed the opinion that the right eye will be entirely preserved. Dr. Hedges, called on long distance phone, had but seven minutes in which to catch train No. 29 for Lynchburg. The railroad officials, however, very considerably held the train for him. The accident occurred shortly before 3 o'clock yesterday afternoon. The three men came upon the dog with which they were hunting, standing a bird, and closed in to flush it. Mr. Tanner stated that he shot at the bird and Mr. Glass, who was standing hidden from view behind a thick hedge, was struck in the face.

Mr. Glass walked nearly a mile to the automobile in which they had driven to Appomattox county, and was quickly rushed to Memorial Lodge hospital. There X-ray plates of the wounds were taken by Dr. H. B. Spencer. Mr. Glass withstood the operation very well and at a late hour was resting as well as could be expected.

Harding's Friend and Spokesman Is "Snowed Under" But New Jersey Assembly Remains Republican.

(Associated Press Leased Wire.)

NEWARK, N. J., Nov. 8.—Governor Edward I. Edwards, Democrat, overhauled U. S. Senator, J. S. Frelinghuysen, friend of President Harding and administration spokesman in the race for the place in the Senate, at Washington in the New Jersey election yesterday, running far ahead of Judge George Silver, the candidate for governor, who also was elected. Governor Edwards held a 2 to 1 lead, and won by 90,000.

The landslide which roared down around the ears of Sen. Frelinghuysen did not carry the backbone and structure of New Jersey Republicanism. The State Senate and Assembly will remain Republican. Governor Edwards announced he attributed his victory to the tariff and prohibition.

### Republicans In N. Carolina Are Badly Trimmed

(Associated Press Leased Wire.)  
RALEIGH, N. C., Nov. 8.—A crushing defeat was administered to the Republican by the Democrats in North Carolina yesterday. Chairman J. Dave Norwood of the Democratic Executive Committee estimates the Democratic majority 10,000 to 20,000 votes. Returns compiled here show 60 of the 100 counties give the Democrats 58,000 majority. Incomplete returns leave the constitutional amendment in doubt and will require official figures to determine it.

Chairman Norwood has issued the following statement:

Returns from 60 counties with few of the east counties to be heard from show a majority of from 70,000 to 80,000.

"We have carried every district in the state. We have reduced Republican representation in the House from 12 to four. We have reduced the Republican seat in the Senate from 11 to 4. Of the three Republican Judicial districts they have lost two leaving the lonely districts of Wilkes, Davie and Yadkin counties.

Anderson county has gone Democratic for the first time in 30 years. I wish to recognize the game fight made under heavy odds by the splendid Democratic organization in Henderson, Stanley, Catawba, Henderson, Randolph, Burke, Surry, and Cabarrus county in each of which the Democratic ticket was carried against a normal Republican majority.

## MARGARET ANGLIN IS BOOKED FOR DANVILLE

Danville patrons of the theatre and many who do not attend the average play will doubtless be interested in the announcement that Margaret Anglin, one of the beauties of the American stage and one of its most brilliant stars, historically and intellectually, has been booked for an appearance at the Majestic theatre in this city on Thursday, November 16th. In "The Woman in Bronze," a play which has proved an admirable vehicle for the exploitation of her genius.

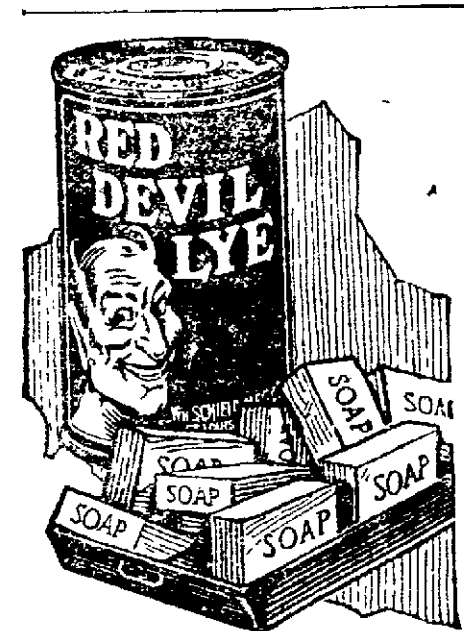

Manager Frank Sohmer, of the Majestic, is congratulating himself and patrons of the fact that Miss Anglin, in her way from Atlanta to New York, will make her first stop at Danville and this is her only one-night stand in the entire home route. From here she goes to Richmond where she is booked for two nights. A dramatic attraction of the first magnitude such as this unquestionably will doubtless prove a magnet to Danville people and particularly to those who demand high class attractions.

## Danville Voters Failed To Go To Polls Yesterday

When asked for a statement on the local returns last night, John W. Carter, Jr., Chairman of the City Democratic Committee said:

The size of the vote in Danville was extremely disappointing. The Democratic candidates received a very satisfactory proportion of the vote cast but it is surprising that more than 2000 Democrats in this city utterly ignored their pledge and obligation to vote for their party nominees.

Three thousand and fifty votes were cast in the August primary. The Democratic party permitted those votes to be cast upon the implied promise that those who then cast them would support Democrats in today's election.

The highest vote cast for a Democratic nominee was 964 for Senator Swanson. Two thousand and eighty six voters who were committed to Senator Swanson's candidacy failed to vote. Two thousand and ninety nine voters who obligated themselves to vote for Congressman Hooker violated that obligation. Twenty one hundred and thirty two voters who pledged themselves to vote for Mr. Talbot utterly ignored that pledge.

"The failure of the voters to respond yesterday is more striking when comparisons are made of the vote cast for the two candidates for local office in the primary. At that time Mr. Talbot received 1752 votes. Yesterday he received 918. Assuming that all of the votes received yesterday were cast by those who supported him in the primary (which of course is not true) 834 of his primary supporters ignored their primary promise and pledge. Mr. Marshall received in the primary 1258 votes. Assuming that all of the 918 votes cast yesterday were Marshall men or women in the primary (which also is untrue) then at least 340 of Mr. Marshall's friends showed poor sportsmanship and violated their pledge to support the successful opponent.

"The comparison is even worse when made with reference to Senator Swanson's vote. In August he received 2292 votes. Assuming that all who voted yesterday were Swanson supporters in August, at least 1384 of the Senator's friends forgot their duty. Governor Davis' friends are the only ones who cannot be convicted on the cold figures of failing in their obligation. He received only 636 votes in the primary. The vote cast for the least Democratic candidate was 918. It is therefore possible but hardly probable that all of the Governor's friends went to the polls yesterday.

"In any view of the situation it is a rather serious matter. It is such results as this that put arguments against the primary method of making nominations into the mouths of its opponents."

## FLYING SPORT PROMISES THRILLS

DR. GEORGE H. MADELUNG AND PHOTOS OF HIS GLIDER IN FLIGHT.

Glider for sports! Sailing through the air, as fast as the wind and as silent as the birds in their flight, this latest invention in aeronautics opens up a new field of thrills and pleasure for the sport lover.

Dr. George H. Madelung, designer of the glider, has recently by staying in the air three hours, tests what he thinks will be the chief use for these motorless airplanes.

Madelung is project engineer of the glider, L. Martin Company, airplane manufacturers of Cleveland. He is considered the foremost authority on gliders in America, if not in the world.

Enthusiasm over the recent sailplane or glider tests held in Germany, already has resulted in the construction of large fleets of motorless planes which soon are traveling through the heavens transporting passengers and freight from city to city. Some see the air become as the ocean—a navigable body, with sailplanes cruising from port to port.

Such predictions are optimistic. I doubt if you or I will ever live to see that day.

However, although the commercial field of the sailplane is limited it will soon—and very soon—come into common use. I know, for sports and for methods of aeronautical research, the sailplane has proven of inestimable value in aerodynamic experiments involving radical

departures from conventional practice have been tried out at very low cost, and with little risk.

Absence of the motor contributes to the accuracy of such tests.

With the sailplane we have also solved important problems of airplane construction. We have learned from it, for instance, that thick wings of very large span, and not nearly so wide as the customary design, can be constructed at a reasonable weight and cost.

But it is as a sport that most people will be interested in gliding. A new glider should not cost more than a second-hand Ford and the upkeep will be almost nothing.

New thrills will come. Only think of sailing at will, thousands of feet aloft, dependent upon nothing but yourself and the wind! You will find, if you try it, that sailplaning is one of the most thrilling sports yet devised.

Up on the hilltop we wait for a favorable wind. The plane, pulled by eagle hands, glides rapidly to the take-off. The plane leaves the ground. At the pilot's cry, all hands raise their hats. A sudden silence that seems an uncanny silence to people accustomed to the airplane motor's roar. It meets the uprushing gusts of air as it descends into the valley, and then it begins to ascend. It soars gracefully to and fro along the slope of the hill, passing and re-passing the starting point.

Time elapses and thus our sailplane dips and glides off into the valley, landing maybe 10 miles away.

## J. Murray Hooker Elected In Fifth By 6,000 Majority

J. Murray Hooker of Patrick County was re-elected to the National House of Representatives from the Fifth Congressional district at Yesterday's election by a majority that will exceed five thousand and may go as high as six thousand. This despite the fact that the election was in an off year and in a condition of unusual apathy.

This apathy was at its worst in Danville, which appears to have cast a smaller vote in proportion to its voting strength than any of the counties of the district.

The majorities by counties are as follows:

County	Hooker	Smith
Charlotte	350	
Halifax	1,500	
Pittsylvania	1,200	
Henry	400	
Franklin	1,000	
Danville	850	
Carroll	904	
Grayson		400
		200
Totals	6,200	600

Hooker net majority 5,600

The above figures are estimated on the basis of partial returns and are thought to be conservative. No report of any kind has been received from the western counties of Carroll and Grayson but the estimate made is that of a prominent Danville Republican who is in the confidence of his party leaders and gives the idea of what is expected by Dr. Smith's supporters. It is understood that some Democrats think it not at all unlikely that Grayson county will go Democratic and some even go so far as to predict that Carroll will do likewise.

The audience while it did not tax the seating capacity of the theatre made up in enthusiasm what it lacked in number.

16 Hens Laying  
14 Eggs a Day

Chinese Tablets Work Wonders for Mr. Bailey. Easy to Try.

"We didn't have much confidence in Don Sung, so we tried it first on 16 hens. We started Jan. 20th, when these hens were laying almost 10 eggs a week. In three weeks, they were laying 10 to 14 a day, or over 6 dozen a week. I'm glad we gave Don Sung a trial, for he has made us regular egg-layers. Clifton, Texas. Six dozen extra eggs a week, at winter prices, and a \$1 package of Don Sung's 16 hens 3 months ago would have paid for itself. Mr. Bailey is glad he tried it. It may sound too good to be true, but we will prove it to you just as we did to him with this offer:

Give Don Sung to 16 hens. Then watch results for 30 days. If it doesn't show you a big increase in eggs, if it doesn't pay for itself and pay you a good profit besides, tell us and your money will be promptly refunded. Don Sung (Chinese egg laying) acts directly on the egg-laying organs, and is beneficial to every way. It makes hens healthy and happy. They scratch and sing. Pallets develop earlier. The whole flock regularly lays 10 to 14 eggs a day, when eggs are scarce and high. Can you afford to ignore the wonderful reports you are hearing about Don Sung? Don Sung is no trouble to use. It costs nothing to try. All we ask is a chance to prove our claims, entirely at our risk. Get Don Sung from your local dealer, or send 50 cents for package by mail prepaid (check or money order). It holds three times as much. Burrell-Dugger Co., 214 Columbia Bldg., Indianapolis, Ind.

RHEUMATISM  
Leaves You Forever

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poisons Start to Leave the System Within Twenty-four Hours. Every druggist in this country is authorized to say to every rheumatic sufferer that if a full pint bottle of Allenbur's, the sure conqueror of rheumatism, does not show the way to stop all agony, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment. Allenbur's has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and pitiful and where the patient was helpless.

Mr. James H. Allen of Rochester, N. Y., the discoverer of Allenbur's, who for many years suffered from acute rheumatism, desires all sufferers to know that he does not want a cent of any one's money, unless Allenbur's decisively conquers this worst of all diseases and he has instructed druggists to guarantee it as above in every instance. Returns Coming  
In Slowly From  
The Districts

NEW YORK, Nov. 7.—Up to eight p. m. eastern standard time the returns from the national Congressional election were coming in slowly and the poll in many states at that hour were still open.

The "Solid South" returned as usual Democratic delegations in Georgia, Louisiana and Mississippi, with indications that other Democratic strongholds south of the Mason-and-Dixon line were in no danger.

Returns from the north east and west, however, were just beginning in Massachusetts, the first returns showed Senator Lodge running ahead of his opponent. The outstanding result early in the evening was the apparent defeat of Governor Miller in New York by Alfred E. Smith, the Democratic governor of two years ago. Smith carried Syracuse, the home of Governor Miller, by 6,704 votes.

The first five women candidates for the House to appear in the returns were beaten. Four were in Pennsylvania and one was in North Carolina. In the South Senator Trammell, of Florida, and House of Representatives of Mississippi and Swanson of Virginia evidently are elected. Senator George succeeds Mrs. W. H. Felton, appointed by Governor Hardwick to succeed the late Senator Thomas Watson. She was the first woman Senator but never took her seat.

Early returns from the Senatorial contests in other states were not indicative of the results although shortly after 8 o'clock the New York Times announced the election of Dr. Royal S. Copeland, Democrat to the Senate in defeat of Senator Calder Republican.

Alfred E. Smith's plurality over Governor Miller of New York continued to mount as the returns piled in. The first turnover in the Congressional elections came in Tennessee when Cordell Hull, chairman of the Democratic National Committee, was elected to House from the fourth district over Representative Clouse the Republican incumbent. Mr. Hull repeated the same district when defeated two years ago.

Speaker Gillett, Republican was re-elected to House from the fourth district over Representative Clouse the Republican incumbent. Mr. Hull repeated the same district when defeated two years ago.

Close in Kentucky—Incomplete returns from the election in Kentucky show two close contests. In the fifth Republicans claim the election of M. H. Thatcher by approximately 3,000 votes with 59 precincts missing. Democratic headquarters claim the election of Kendrick Lewis by approximately 1,000.

Complete returns from 85 out of 155 precincts in the tenth district gave John W. Langley, Republican, 7,158; F. Tom Hatcher, Democrat, 4,428. The third district previously considered doubtful rolled up an unofficial majority of approximately 6,000 for R. T. Thomas, Democrat over W. O. Roats, Republican.

FRANCE, REPUBLICAN—BALTIMORE, Md., Nov. 7.—With a little more than half the state reported, 10 p. m. William C. Bruce, Democratic candidate for United States Senator was leading Joseph I. France, Republican incumbent by 4,601 votes. All but 64 of these precincts are in Baltimore city. The total vote was:

NEELY IS LEADING FOR GOVERNOR IN W. VA.—CHARLESTON, W. Va., Nov. 7.—M. A. Neely, Democratic candidate for United States Senator, to which Senator Howard Sutherland is seeking re-election and four of the Democratic Candidates opposing present Republican members of the House of Representatives, were leading the Republican incumbent when about one-fifth of the vote of the state had been tabulated at 9:30 tonight.

BROOKHART IS ELECTED—DICK MOORE, Ia., Nov. 7.—Smith W. Brookhart, Republican candidate for United States Senator from Iowa, led Clyde L. Herring, Democratic opponent, nearly 2 to 1 in the first 75 precincts to report out of 2,348 in the state. The vote:

turns from 10,569 votes and J. R. Files, Democratic candidate, 2,961.

W. Hastings, the major candidate, who defeated her by a large margin in various states on various tickets also were beaten.

## STRIKING COAL MINERS "DIGGING IN"

By NEA Service.

CONNELLSVILLE, Pa., Nov. 7.—The nation-wide coal strike is history in most mining fields, but here in Connellsville, the striking miners are digging in for the winter. They are waiting for a finish for the miners' strike.

Tracks of wood are being built up, the coming of winter, and the miners are digging in for the winter. They are waiting for a finish for the miners' strike.

Union officials and the working men members throughout the rest of the country are supporting the strike. Nearly \$200,000 already has been spent and thousands more in assessments is being collected help the strikers through their winter.

Small wooden huts these barracks appear from the outside. But within they provide a modest degree of comfort and shelter. The strikers who have not found other work to occupy their time during their enforced idleness, are being kept at the construction of these barracks. Some 20,000 are at the disposal of the miners for and in this work, although not all are needed. Five thousand others are jobs at nearby mills or on the highway.

That the prediction of a great Democratic victory made last Monday in Indiana for Senator, gave the narrow margin in the race for governor. In the Congressional races, seven of the eight districts were being led by Republicans.

Morgan made his campaign largely on the industrial court platform, being supported by Henry J. Allen, present governor. The Ku Klux Klan element entered the campaign the last few weeks when Governor Allen, speaking in favor of Morgan's candidacy, bitterly denounced the Klan.

ways. About 8,000 have left this district for union fields where the miners have returned to work.

Family to a Room. For those who remain, with their families, the barracks are put up to help them fight more advantageously against the operators. Little convenience is promised them, even in these inner homes. But essentially, the barracks will be suitable shelter against the weather.

A family to a room is the way the new homes are being allotted. And with miners' families ranging from 4 to 12 or even more children, there is little space for any more comfort than what is necessary.

From four to twenty rooms make up a barracks, all of which are being built in a camp beside the tents. A stove, a table, a few chairs, cots and extra mattresses in cases of larger families, compose the furniture. The inhabitants are satisfied with warmth and comfort as all they want, aside from a settlement of the strike that gives their views consideration.

Doctor Advised Use of Lydia E. Pinkham's Vegetable Compound

Happy Results in Both Cases

St. Joseph, Missouri. "Both of my sides ached and hurt me so that I could not move or do any of my work. There was heavy pressure and pains through my lower organs and the doctor told me to try Lydia E. Pinkham's Vegetable Compound for these troubles. He said I had this one chance, and if the Vegetable Compound did not help me nothing but an operation would do. After taking several bottles I felt it was helping me and now I am able to do my own work. If my testimonial will help others I shall be glad for them to read it and hope your Vegetable Compound will do them as much good as it did me."—Mrs. Wm. Lockman, 513 N. 4th St., St. Joseph, Mo.

White Plains, N. Y.—"I had such a pain that I could hardly walk and the doctor said that I needed an operation. I was sick for a year before I started taking your medicine and I could not work. I saw your advertisement in a little book and that is how I came to take Lydia E. Pinkham's medicines. I have been taking the Vegetable Compound and Lydia E.

Some female troubles may through neglect reach a stage when an operation is necessary. But most of the common ailments are not the surgical ones; they are not caused by serious displacements, tumors, or growths, although the symptoms may appear the same.

When distressing ailments first appear, take Lydia E. Pinkham's Vegetable Compound to relieve the present distress and prevent more serious troubles. Many letters have been received from women who have been restored to health by Lydia E. Pinkham's Vegetable Compound after operations have been advised by attending physicians.

## SHOULD THE WOMAN PROPOSE?

NEW YORK, Nov. 8.—Should the woman propose? W. L. George, noted English writer, has said that with the growth of feminism comes a growing tendency

for women to propose marriage to men. Their proposals, he points out, will "hold forth to men a far greater chance of happiness than

they had hitherto, for they will be sure that the women who select them do so because they love them and not because they need to be supported."

Meanwhile the attitude of men, George declares, is changing from "Will you be mine?" to "May I be yours?" But do women really want to propose?

In search of an answer NEA Service went to five women in widely different walks of life. Here are the views of a woman lawyer, an actress, a waitress, a stenographer and an artist:

BY LUCILLE PUGH  
Woman Attorney.

Women are more intelligent than men, therefore they should do the proposing. But to propose to a man you do not need to know him, neither do you have to march up to him with a box of chocolate creams and a bunch of red roses.

If you like a man—let him know it. If you think he's clever and brainy and you love the way other men look up to him, let him know it.

And if you think you would make him a delightful pal, a charming mistress for his home, a good cook, an aid in all his undertakings, let him know that too.

It will probably be the best thing that ever happened to him.

BY GRACE G. DRAYTON  
Artist.

First choose your man, then run. But don't run too fast.

It is a pretty old legend—that man must be the pursuer, woman the pursued, and I doubt if anything is going to change it for a long time.

Women are voting, they have gone into the professions and some of them are making a great deal of money. But none of this changes the biological circumstances that women are women and men men.

A man's mind is so constituted that he just loves to overcome obstacles. Consequently he prefers a woman who eludes him to one who comes forward and asks him in straightforward fashion to support her for the rest of her life.

I should let the man do the proposing for a long time to come.

BY HILDA CARLSON  
Waitress.

Even if I die an old maid, I would never propose to a man.

It would be a pretty state of affairs for a girl if some of the men she thinks she's in love with should accept her.

When you're 16 you fall in love with the boy that drives the grocery wagon.

When you're 18 it's the tenor in the church choir. Six months later it's a stock actor.

You see them a few years later and you wonder what you ever saw in them.

No, women relieve themselves of a great deal of responsibility by leaving the proposing to the men.

BY LUCILE REINHARDT  
Stenographer.

I once worked in an office where there was a girl who has gone with a young man for nine years.

One day he went for a visit to his home town and came back—married to a schoolteacher he had met on a picnic eight days before.

The girl's heart was broken.

"Why didn't you ever put it up to him?" I asked.

"I was afraid to," she said.

If in such cases, and nearly every one knows of such cases, "putting it up to a man" amounts to a proposal, then I'm for it. It is better for a girl to know a man's real intentions toward her than to throw her youth away.

BY CECILE SOREL  
Actress.

It is not woman's place to propose.

Woman will lose her power over man if she takes the initiative in matters of love. To retain her sway she must hold herself aloof, let herself be pursued and not submit to easy capture.

Half of woman's fascination lies in keeping man thinking she is unobtainable.

If she does the pursuing, the mystery of her disappears, and she loses much of her value in man's sight.

As you say in America—

"Woman must keep man guessing."

## RUTGERS RUNS UP BIG SCORE ON LOUISIANA

NEW YORK, Nov. 7.—Rutgers heavy-weight eleven ran rough shod through the Louisiana State University team here this afternoon in the final period of the game winning 25 to 0. The New Brunswick College was represented by a team of substitutes in the first period and Louisiana although unable to score, outplayed the northerners.

When Coach Sanford began to send in the varsity regulars in relays of from three to six at a time the situation was quickly changed.

Louisiana despite its plucky and hard defense was unable to hold Rutgers which ploughed through steadily with an occasional forward pass injected to keep Louisiana secondary defense from coming into the line.

Although outplayed, the visitors showed some excellent tackling and end running, especially Half-back Helm, who was the outstanding figure, both on offense and defense.

Maloney was the star for Rutgers, his forward passing and eighth yard run for a touchdown after catching a punt being the thrilling features of an otherwise drab game played in mist and rain.

**FRAZEE OFFERS MANAGER JOB TO CARRIGAN**

By Nea Service.

BOSTON, Nov. 7.—Bill Carrigan, former leader of the Red Sox, can manage his old team again next year if he desires.

Harry Frazee, owner of the Sox, admits that Carrigan is the man he is after to handle the local American League team.

The sorry showing made by the Red Sox last season demands action. No one realizes it more than Frazee. He feels that a managerial change is absolutely necessary.

Carrigan, a big favorite in Boston, is the one man that should be given the job. He has been up to the top of the game in the past.

The proposition has been put up to Carrigan and it is up to him to refuse or accept the leadership. It is understood the money question will not enter into the affair. Frazee will pay any reasonable figure Carrigan demands.

The owner of the Red Sox believes that his team with a bit of strength added, here and there would be anything but a last place proposition.

Whitey Lind of Huskey Duffy, Frazee believes the club needs a driver to get anywhere. Duffy is too agreeable with his athletes and they get away from him.

Bill Carrigan is the only manager

who was ever able to make Ruth step the way he wanted him. When with Boston the Babe behaved himself.

## World Billiard Championship Match Now On

NEW YORK, Nov. 7.—Six of the finest billiardists that ever lived are ready to begin play at the Hotel Pennsylvania Monday for the world's championship at 18.2 ballroom billiards.

They are Jake Schaefer, the greatest champion the game has known; Willie Hoppe, champion for sixteen years and, in point of skill, hardly a pace, if that, behind Schaefer; Walker Cochran, No. 3 in the American ranking; Edouard Horemans, champion of Europe; Roger Conti, of France, and Eric Hagenlacher, of Germany.

Last year's tourney in Chicago was productive of more sensationalism than any similar event since Hoppe won the title while still in his teens. It saw Schaefer break the Hoppe monopoly for the first time, and then only after a 1,500-point play-off, in which Hoppe muscled when within thirty-five points of retaining the championship.

In victory, Schaefer proved himself the greatest champion of all time; yet were it not for the fact that he disposed of Hoppe twice during the tourney that honor might very well be placed in doubt.

However, both of the men in question, to say nothing of Cochran and Horemans, are 20 per cent. beyond the ability of the old-time stars. Twenty years ago Schaefer the elder was called the Wizard because he had beaten such men as Cure and Frank

Ives, but he would be forced to improve his game considerably to stand a chance now.

The big thrill of the present event hinges on the possibility of Hoppe's comeback. In practice at the Hoppe-Peterson Club he has averaged between fifty and sixty and seems to be in ideal physical and mental condition.

Such an average years ago would have been unprecedented. Today it means little beyond the fact that the player is showing commendable form.

The game has been revolutionized. The man who did it is Horemans, who came here from Belgium with a system of nursing from the center and achieved remarkable results. He is not particularly fond of tight situations, however, and exhibition matches are his delight.

He is responsible indirectly for the tremendous improvement in Schaefer and Cochran, however. These observant youths engaged in a series of exhibitions with the Belgian prior to the 1921 championship, and in less than two weeks had not only absorbed his system to the last detail, but were able to apply it to better advantage than Horemans ever will.

On paper, the championship this year lies between Schaefer and Hoppe, with Cochran and Horemans always dangerous. And not a few astute citizens are making Hoppe a favorite to win back the laurels he was so abruptly deprived of twelve months ago.

The custom of wearing rings upon the thumb prevailed in England until the close of the eighteenth century.

Banquets in China often comprise as many as 50 courses.

## THREE MORE WOMEN GO ON HUNGER STRIKE

DUBLIN, Nov. 7.—The other woman arrested on the same day as Miss Mary MacSwiney joined today in her hunger strike at Mount Joy Prison. Miss MacSwiney was brought back weak after her exercise today and requested that she might be permitted to see Dr. Kathleen Lynn but the application was refused.

A meeting of protest was held here tonight and Mrs. Maude Conn McBride called upon the audience to denounce the "crowning infamy" of the attempt to murder the sister of Terence MacSwiney.

It was suggested that women volunteers should picket night and day the residence of those responsible for the arrest of Miss MacSwiney until she was released.

**CAPTAIN OF FOOTBALL OF SOUTH CAROLINA RESIGNS**

COLUMBIA, S. C., Nov. 7.—Declaring that he could not back Coach Ed Metzger and his assistant in the treatment of the men on the University of South Carolina football team, Jackie Alex Waite today resigned as Captain of the team. At the same time Waite's resignation was announced, it also was announced that Full-back Eric Snipes, chief ground-gainer on the team had been fired by Coach Metzger for failure to obey orders.

## Charges Made In Building Of State Highways

RICHMOND, Nov. 7.—In keeping with the determination of the Virginia Highway Commission to build State Highway as efficiently and economically as it is possible to do so, the plans and specifications for the construction of concrete roads and for the preparation of the subgrade on all types of highways are undergoing a complete revision in accordance with well-defined results obtained from exhaustive tests which have been conducted by the State Highway Department.

The great change in specifications will affect concrete road construction. The Bates road test in Illinois, where a section of road was subjected to a gradual increase of loads until the breaking point was reached, showed conclusively that the thickness of road surface in the case of concrete, should be on to sides rather than in the center.

The Illinois specifications have substituted for the old type of road a concrete road with a thickness of eight inches in the center and six inches thickness on the sides, a thickness of nine inches on the side sloping to six inches in thickness two feet from the edge and continuing the six inches in thickness for the remainder of the width of the road. The surface is given the same crown which it now has for drainage purposes. The new specifications reduce the variance of concrete.

**BENTLEY FOR ROUSH IS LATEST TRADE RUMOR**  
By Nea Service.

NEW YORK, Nov. 7.—Will Jack Bentley, the Babe Ruth of the minors, start the season with the New York Giants?

Rumor has it that Bentley was secured by McGraw to use in a trade that would bring Eddie Roush back to the Giants.

McGraw says that he intends to use Bentley as a pitcher. The New York club doesn't need a southpaw. Art Nehf is one of the best in the National League.

The Giants need a center fielder badly. Cincinnati could stand some pitching strength. First base also needs attention. While Jack Bentley played the best first base in the National League last season the aged Jake cannot be expected to go on forever.

Roush, no doubt, is dissatisfied at Cincinnati. He joined the club late in the season, the holding out for months over a salary difference.

Perhaps his late joining of the club was merely a blind, the real purpose being to get him back into good standing so that he would be eligible to play in 1923 should a trade be made for him.

McGraw usually gets what he wants. The leader of the Giants wants Roush. The Bentley deal may be the means of bringing about the transfer.

**CAPTAIN ALCOCK WINS HANDICAP**

BALTIMORE, Md., Nov. 7.—Captain Alcock won the 10,000 foot handicap for three year-olds and upward at a mile and a half at Pimlico this afternoon. Exodus was second and Oceanic third. Time 2:33 2-5. Noddy, Timble, Paul Jones and Mad Hatter also ran.

The purses paid: Captain Alcock \$15.45; 6.60; 2.50; Exodus \$3.50; 2.40; Oceanic \$2.50.

Captain Alcock won in a driving finish with Exodus after Oceanic, who had set the pace to within 40 yards of the wire, faltered and lost the rich prize, finishing third.

## ONE COLOR FOR ENTIRE COSTUME

The larger New York shops report a tendency for well-dressed women to choose underwear that not only corresponds in line to their outer garment but that corresponds in color as well.  
To accompany evening gowns, besides the usual white and pink there are shades of orange, American beauty, cerise, lavender, blue and green. Many sets are elaborately trimmed with dyed laces.  
Black underwear is shown for daytime wear with dark frocks. Knee-length bloomers are taking the place of those of ankle-length to make way for the recently returned petticoat or the new costume slip.

## SIX STEAMERS BURN IN RIVER FIRE

Four packet steamers and two other Ohio River vessels were destroyed recently in a fire at the Cincinnati public landing, which drew the entire city fire department. But for the work of other boats in towing the burning hulks out into midstream, the fire would have spread to the docks and destroyed much waterfront property.

## From Newsboy to Governor of N. Y.

### Remarkable Career of "Al" Smith, Who Triumphed Over Governor Miller in Yesterday's Election.

BY EDWARD THURRY

NEW YORK, Nov. 7.—"Al" Smith's election as governor of New York, beating the man who beat him at the end of his first term two years ago, was a personal triumph as well as a party victory.

America's favorite political tradition, that statesmen must rise from humble walks of life, runs true to form in Smith's case. He was once a newsboy, and the phrase "from newsboy to governor" didn't do him any harm in the campaign.

Smith, "Al" to his friends, Not one voter in ten knew—or cared—that his full name is Alfred Emanuel Smith. He has the widest and readiest and cheeriest smile of any man in public life. He has been wearing that smile for a quarter of a century, and it helped him to be elected assemblyman, sheriff, president of the Board of Aldermen, and finally governor in 1918.

One of the Masses.

How popular Smith is personally may be guessed by the fact that he ran far ahead of the Democratic presidential nominee in 1920. He was only narrowly beaten in the Republican landslide by 74,000 votes, while Cox lost the state by more than 1,000,000 votes.

Tammany Hall discovered Smith on New York's congested East Side. He was born there 49 years ago and it has been a pretty big political asset for him that he still lives in the neighborhood where he was born. He is proud of being one of the masses. Ex-Governor Martin H. Glynn, presiding at a farewell banquet at the end of Smith's first term as governor, called Smith "a graduate from the University of Nature."

Here's the way Smith looks at his job.

"Let me tell you there is nothing in the business of being governor unless you are prepared to forget yourself and the fact that you live in a mansion and remember the other fellow who isn't governor and who doesn't live in a mansion.

"What little aid or comfort I have been able to give the man, woman or child whom nobody hears about and nobody seems to care about will give me more satisfaction in years to come than all the glory I can get out of being governor. A man to make good in this office must be a human being above all.

Human All the Time.

Smith regards the job of being governor all the time. When he makes a speech the audience asks if they were there because they wanted to be not because it was a political duty.

Being popular isn't Smith's only

MILK D. CAMPBELL, PRESIDENT OF NATIONAL MILK PRODUCERS' FEDERATION, PRODUCE CHARLES W. HOLMAN, EXECUTIVE SECRETARY, By NEA Service.

### Plan to Cut Cost of Milk

WASHINGTON, Nov. 7.—If the plan for cutting the cost of milk distribution discussed at the 33rd annual meeting of the National Milk Producers' Federation at Springfield, Mass., is carried out, it will be the biggest cooperative undertaking America ever has known.

Too many links in the distribution chain, each demanding its profit, result in the cost of milk to the consumer being more than double the price received by the producer. By eliminating most, if not all, of these middle links, through cooperative marketing by the milk producers themselves, it is believed a sufficient saving can be accomplished to cut present prices to consumer and still give the farmer a better average price for his product than he now receives.

Producers now belonging to the federation number more than 200,000 and their annual milk output is worth between \$500,000,000 and \$600,000,000.

The producers also plan a battle against high railway rates for carrying milk. In its recent rate division, the Interstate Commerce Commission refused to reduce the charges allowed railways for hauling milk.

Following this refusal, at the request of federation officers, the National Automobile Chamber of Commerce made a nation-wide survey of milk transportation by auto truck and the possibilities for its further extension. On the basis of this report, it is expected plans for immediate expansion in milk truck lines will be laid, to cover all the major districts of intensive milk production.

## Hotel Register Traps Husband

### Mrs. L. L. Bright Also Has New York Woman Seized as Love Pirate.

MACON, Ga., Nov. 7.—Lynwood L. Bright, former Macon man and son of the late Green L. Bright of Macon, who left his son a small fortune, was arrested Sunday night in Macon on a warrant from Fulton county charging him with a misdemeanor in connection with his registration several weeks ago at an Atlantic Hotel with a woman said to have been other than his wife. Bright was released when he agreed to answer the charge in Atlanta.

Almost simultaneously with the arrest of Bright in Macon, Mrs. Fredericka Pace of Fort Washington avenue, New York City, 43 years old and said to be the widow of a former wealthy New York inventor, was arrested in Jacksonville, Fla., as she stepped from an incoming New York steamer. She was held for the authorities in Atlanta on charges said to have grown out of the same indictment from against Bright, Mrs. Bright formerly Miss Olivia Harris of Macon, was at the dock and pointed out Mrs. Pace as a detective when the steamer arrived.

Trouble between the Brights and Mrs. Pace began several months ago when Mrs. Bright had her husband sent to Raccoon Island for non-support. He was sentenced to serve 12 months by Magistrate Brough of the Court of Domestic Relations, but Bright was released later through the efforts of his father, Mrs. Bright said.

Bright is in Macon to confer with his attorneys in regard to a divorce suit he led against his wife several months ago, charging desertion. Mrs. Bright denies the charges. She has been gathering evidence for a counter suit she expects to file, naming Mrs. Pace as co-defendant.
